Wawe Waste to Wealth Pvt. Ltd.

www.wastetowealth.vzy.io

WAVE Waste to Wealth Sustainability Pvt Ltd aims to tackle the escalating global waste crisis. By 2050, there will be more plastics in oceans than fish. Only 10% of global waste is recycled, compounded by littering behavior. WAVE offers instant composting of organic waste, materials recovery for plastics, and forward linkage to repurpose materials into useful items. Their mission is to create a cleaner, sustainable planet, preventing waste from polluting water bodies and oceans.
