

भारतीय प्रौद्योगिकी संस्थान रोपड़ Indian Institute of Technology Ropar SISFS Funded Startup

Suspack Technologies LLP

www.suspack.co.in

Suspack Technologies LLP is an eco-friendly packaging startup that has developed a sustainable process for making fiber molded tableware from rice straw. By utilizing agricultural waste and eliminating the use of harmful chemicals, Suspack aims to replace single-use plastics and reduce air pollution caused by the burning of rice straw. Their innovative process consumes less water and energy compared to existing methods, resulting in a zero-waste and zero-discharge manufacturing process.
